RESPONSE TO ELECTION REQUIREMENT

Commissioner for Patents
P. O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

This is filed in response to the Office Action dated March 23, 2006, and is being deposited as First Class Mail. The response is believed to be timely with respect to the 30-day shortened statutory period for response that was set in the Action.

With respect to the requirement for the election of species under 35 USC §121, the Applicant elects dinotefuran as the species of nitroguanidine and a biological/fermentation product pesticide as the species of the other pesticide for initial search and examination. The claims that are readable on the elected species include: claims 42 – 47, 57, 68, 75 and 86.

The Applicant maintains that election of species for the nitroguanidine and the other pesticide fulfills the requirements for the election of species, and respectfully requests that search, examination, and allowance of the claims proceed on that basis.

Respectfully requested,

NELSON MULLINS RILEY & SCARBOROUGH
